

FREE SPACE!

Can you offer some space?

- for free -

for people in your community to meet together in informal learning circles?

People all over the country are starting to meet together to learn from each other in new learning circles. Some are people now enjoying learning for the first time; sharing the excitement of a hobby, or learning from other people's passions - like preparing fantastic food, keeping bees, pondering on the universe, exploring local history, finding roots, growing roots, surfing the internet, sharpening those diy skills, making friends with their car engines, writing romance, sharing songs and building life stories..... and the list goes on..

The WEA is running the Learning Revolutionaries project funded by the Transformation Fund, part of the government's new support for informal learning. Learning Revolutionaries are volunteers being trained and supported by the WEA to help people set up learning circles. EAPN England, a project partner, is seeking offers of free space for learning circles to use.

Join our revolution!

Community centres, libraries,

schools, village or church halls, businesses, colleges, scout hut, beach hut..

Please get in touch if you'd like to offer some space

Use this link to find out more. You can leave us your details and we'll contact you.
